

NICHOLAS A. TOUMPAS COMMISSIONER

State of New Hampshire

DEPARTMENT OF HEALTH AND HUMAN SERVICES

129 PLEASANT STREET, CONCORD, NH 03301-3857 603-271-4688 FAX: 603-271-4912 TDD ACCESS: 1-800-735-2964

September 27, 2011

Representative Ken Weyler			
Chairman			
Fiscal Committee of the General Court		APPROVED E	3Y
State House			
Concord, NH 03301		DATE	10/28/4
Re: Dashboard – August 2011		PAGE	5
	Information	ITEM #	FJS 11-292

Pursuant to Chapters 223:6 (HB1) and 224:14 (HB2), Laws of 2011, the Department of Health and Human Services is providing this dashboard report, which along with the quarterly report to the Fiscal Committee on expenditures for the Medicaid program provides a status on demand for services in entitlement programs. The purposes of this dashboard are to:

- 1. Provide summary information on enrollments in several of the high cost programs managed by the Department
- 2. Monitor high level fiscal issues to ensure sufficient funding is available for entitlement programs and for programs intended by the legislature, and to
- 3. Provide a summary of significant administrative and operations initiatives.

Explanation

Chapter 224:14 (HB2), Laws of 2011 provides certain restrictions and authorities to the Department of Health and Human Services to address potential budget shortfalls. Specifically, paragraph I requires prior approval of the Fiscal Committee of the General Court and Governor and Council (G&C) for any change to program eligibility standards or benefit levels that might be expected to increase or decrease enrollment in the program. Paragraph III authorizes the Commissioner to transfer funds, with the exception of class 060, benefits, within and among all PAUs within the Department, as the Commissioner deemed necessary and appropriate to address present or projected budget shortfalls subject to the approval of the Fiscal Committee and G&C.

Individuals Enrolled For Services

As noted in Table 1, caseloads continue to grow for most services, but at a much slower rate than was experienced in SFY 2011. The total number of unduplicated persons grew by 1.7% from July 2010 to July 2011, which is significantly lower than the growth rate experienced the previous two years. While caseload growth has slowed, except for long-term care and Financial Assistance for Needy Families (FANF), caseloads have not declined and the Department continues to serve an unprecedented number of clients.

Table 1
Persons Enrolled in Services August 31,

	SFY09	SFY10	SFY11	SFY12
Unduplicated Persons	125,668	141,132	151,231	153,803
Medicaid Persons	103,655	12.31% 114,030	7.16% 118,841	1.70% 119,628
Long Term Care-Seniors	7,128	10.01% 7,323	4.22% 7,098	0.66% 7,004
FANF Persons	10,851	2.74% 13,498	-3.07% 13,981	-1.32% 11,980
APTD Persons	6,793	24.39% 7,935	3.58% 8,643	-14.31% 8,905
		16.81%	8.92%	3.03%

Medicaid Program

Medicaid is the largest and most costly program administered by the Department. Total Medicaid costs account for in excess of 70% of total Department costs. Medicaid costs are a function of enrollment, utilization and rates. Options for controlling Medicaid spending are limited. Rates have been reduced or frozen in past budget reduction initiatives, controlling utilization is restricted by State and federal regulation, and reducing enrollment through changes in eligibility criteria is prevented by the American Recovery and Reinvestment Act (ARRA) and the Patient Protection and Affordable Care Act (PPACA). The Department is implementing a managed care program and has provided updates to policy makers.

FANF Caseloads

August caseloads for Financial Assistance for Needy Families (FANF) decreased by 14.3% from the previous year. This large reduction is related to termination of the two-parent program as part of the budget as well as changes to the criteria applied to other programs for eligibility.

Disabled Caseloads

The growth in enrollment for Aid to the Permanently and Totally Disabled (APTD) persons, as noted in Table 1, has exceeded that of any of the other major programs on a percentage basis. Kaiser Foundation reports on a national level the elderly and disabled represent 25% of Medicaid enrollees yet account for 67% of the Medicaid cost. In a February 2011 report, Kaiser also noted "enrollment growth among the aged and disabled has exceeded the rate of growth of the overall US population, and has significantly contributed to higher Medicaid costs due to the high cost of medical care for this population." They identified the following factors behind this trend:

- "Baby boomers," are now in the 55-64 age range, when the likelihood of disability increases, and are beginning to expand the elderly population;
- New medical technologies and advances in pharmaceuticals that save, improve, and lengthen lives for many—and increase the number of people living with disabilities, many of whom rely on Medicaid to pay for their care;
- Increased ability to recognize and treat chronic conditions, particularly mental health problems, which may contribute to enrollment growth among the disabled.

Representative Ken Weyler Page 3 September 27, 2011

There is also evidence that during the recent recession, the disabled have been more likely to become unemployed and apply for disability benefits through both supplemental security income (SSI) and social security disability insurance (SSDI).

Food Stamps

In August, there were almost 46 million people in the United States on food stamps, roughly 15 percent of the population. That's an increase of 74 percent since 2007, just before the financial crisis and a deep recession led to mass job losses. Recent news accounts estimate about forty percent of food stamp recipients are in households in which at least one member of the family earns wages, but earn wages below the eligibility threshold for food stamps. For the year 2010, the national average was 14.1%. New Hampshire was third lowest in the nation at 8.5%, behind Wyoming (6.9%) and New Jersey (8.0%).

Administrative Reorganization

The Department has been in the process of restructuring and downsizing the organization. In June 2009, 272 positions were vacant for a vacancy rate of 8.1%. At June 30, 2011, two years later, there are 581 vacancies for a vacancy rate of 17.4% (Table D). Most of these vacant positions were abolished by HB1 for SFY 2012-2013, thus permanently reducing the size of the organization. In SFY 2000, the Department had a budget of \$1.2 billion and approx. 2,811 filled positions, which equates to a staffing ratio of 2.4 employees per million dollars of budget. The SFY 2012 budget is \$1.9 billion and filled positions are 2,813 for a staffing ratio of 1.46. Filled positions have remained essentially flat over the ten years while programs administered by the Department have grown in number, size, and complexity.

The downsizing of the organization comes at a time when the Department is also being tasked to implement elements of the Accountable Care Act and transformation initiatives required by the SFY 2012-2013 budget. The implementation of the Affordable Care Act (ACA) requires new roles for Medicaid. We will face the challenge of implementing reforms including implementing the Medicaid expansion, transitioning to a new income eligibility methodology for Medicaid, setting up Health Insurance Exchanges, re-designing eligibility systems to coordinate with the Exchanges, and implementing new program integrity functions as required by the regulations. Transformation initiatives are summarized below.

Transformation Initiatives

The Department is working on implementation of several significant initiatives as required by the SFY12-13 budget and related legislation. The current status of these is noted on the Attachment.

Summary

The Department and State government as a whole have been faced with significant fiscal challenges. For SFY 2010 and SFY 2011, the Department was proactive in addressing these fiscal issues and was able to service escalating caseloads with limited resources, both financial and staff, through three significant cost reduction programs:

Table 2
SFY10 & SFY11 Cost Reduction Initiatives

	SFY	/10	SF	/11
Rounded to \$000	General Funds	Total Funds	General Funds	Total Funds
Step 1 Governor's Layoff	\$2,871	\$8,577	\$5,720	\$10,196
Step 2 Cost Reduction	\$27,609	\$39,475	\$41,929	\$71,023
Step 3 Cost Reduction	\$6,424	\$4,045	\$6,887	\$6,845
Total Reductions_	\$36,904	\$52,097	\$54,536	\$88,064

Representative Ken Weyler Page 4 September 27, 2011

The Department has continually committed to making critical assessments of the current systems for management of care for clients meeting eligibility criteria and to transitioning delivery systems to more effective and efficient systems with the intended purposes of improving in the value of the services delivered.

These transitions require a clear definition of what constitutes a New Hampshire health and human service safety net, and difficult decisions on how best to deliver those services through new technologies and contractual arrangements with providers of those services. This message has been conveyed to providers, advocates, policy makers, and Department employees and is the basis for the SFY 2012-2013 budget.

Respectfully submitted,

Nicholas A. Toumpas Commissioner

Enclosure

cc: Representative Ken Weyler, Chairman, House Finance Committee

The Honorable William O'Brien

The Honorable Peter Bragdon

Department of Health and Human Services Attachment To Monthly Dashboard Current Status of Significant Transformation Initiatives

Care Management

The budget requires a managed care model for administering the Medicaid program and its enrollees to provide for managed care services for all Medicaid populations throughout New Hampshire consistent with the provisions of 42 U.S.C. 1396u-2. The budget includes savings of \$16 million general funds for this initiative. The Department has developed a three-phased approach, which is consistent with the language of Chapter Law 125 (SB 147). The first phase includes all Medicaid and Children's Health Insurance Program (CHIP) State Plan medical services for all populations with the exception of Third Party Liability and Spend down populations. The first phase also includes specialty behavioral health services that will be part of a Prepaid Ambulatory Health Plan for those diagnosed with Severe and Persistent Mental Illness, Severe Mental Illness and Severe Emotional Disturbance through a federal 1915(b) waiver as required per Chapter Law 224:24 (HB 2), Laws of 2011. Phase II will include specialty services for the long-term care populations and the Medicaid expansion population under the Affordable Care Act. Phase III considers the state's option to manage the financing for specialty services for those dually eligible for Medicaid and Medicare as well as nursing home services. The Department is conducting a stakeholder engagement process through public forums, focus groups and an online survey. It also is defining the requirements for the program, which will detailed in the Request for Proposals.

Children's Health Insurance Program (CHIP)

The budget requires a restructuring of the administration of the Children's Health Insurance Program that will include, but is not limited to, a Medicaid expansion, accountable care organization, or risk-based managed care model. The New Hampshire Healthy Kids Corporation continues to administer the program and is expected to do so until the managed care program is implemented. A core CHIP transition planning team comprised of Division of Family Assistance and Office of Medicaid and Business Policy staff was created and convened to identify and prioritize key issues for the CHIP transition. A schedule of planning meetings has been set with the core planning team for every two weeks. A work plan is in the process of being developed. Some of the key issues that will be addressed in the work plan are: system changes, staffing needs, customer service, budget, rules/State Plan amendment, stakeholder involvement, operations, brand, and marketing/outreach. The next steps include prioritizing key issues and identifying pivotal policy questions and their answers that will inform the refinement of the timeline of the CHIP transition, e.g. policy decisions that impact information technology systems. The Core CHIP Transition Team believes that transitioning the CHIP program into the Medicaid program is the most practical and beneficial option for the State of New Hampshire and for the children on the program.

Mental Health Prepaid Finance & System Reform

BBH and the Actuarial firm Optumas have completed the rate setting process. We are currently working on a first draft of the 1915(b) waiver for CMS review, which we anticipate being completed within the next week. BBH has begun the process of realigning its own staffing to position itself for the implementation and monitoring of the Waiver. The BBH Project Team is currently meeting with each of the CMHC's individually to review the impact of the proposed funding changes for each region. We continue to work towards a February implementation date.

Mental Health, Transitional Housing

The budget transfers \$12 million general fund from institutional care to community based care to develop additional community capacity under the 10-year plan, develop private intensive community residential program on the campus of NHH, discharge THS patients to community providers and APS, and discharge continuing care patients to community providers and keep some on admissions units. An RFP was released this spring, the responses were reviewed and scored and a recommendation made to proceed with a contract with the selected bidder. BBH is working with that organization on their transition plan, the contract for services and we are also developing a new Administrative Rule specific to services, which will be provided by the new organization. The new vendor will take over the program on January 1, 2012.

Mental Health, Limitation on Services

RSA 135-C:13 is amended to limit admission to the state mental health services system and access to treatment and other services within the system to the amount of available appropriations. The community mental health program will conduct clinical assessments of applicants for services and prioritize delivery of services based on the severity of the individual's clinical needs. The Community Behavioral Health Association recently reviewed the impact of the new Statute with the Mental Health and Substance Abuse subcommittee of the HHS Oversight Committee and reported that no one had been turned away from services.

DDAA & CMHC Consolidation

The budget requires a consolidation of Developmental Disability Area Agencies and Community Mental Health Centers. Savings of \$1.8 million general funds are budgeted. BBH has requested a proposal from the Community Behavioral Health Association on how these changes will be operationalized, and no proposal has been returned to BBH as of this date. BBH will, therefore, explore other options it has available to incorporate these reductions.

BDS Proposed Process/Timelines for Area Agency Board Involvement in Sustainable Cost Savings Plan Development (Target \$900,000)

- May 2011: CSNI retreat generates list of potential cost savings ideas.
- June 2011: Several ideas included in overall plan submitted to Commissioner Toumpas
- August 19, 2011: CSNI executive committee develops preliminary ideas for systemic cost savings.
- August 26, 2011: Preliminary ideas discussed with entire CSNI board on conference call
- September 7, 2011: Final list of ideas developed at CSNI board meeting.
- October 5, 2011: Facilitated discussion by Pat Fair with 3-4 board members and executive director from each area agency to discuss proposals
- October/ November 2011 Area Agency Board meetings: Local boards review suggestions and agree on specific cost saving proposals
- December 2011: Area Agency board presidents and executive directors re-convene to endorse specific plan for \$900,000 in cost savings
- January 2012: Final plan submitted to Commissioner Toumpas.

Project Star

Implementation of a managed care financing mechanism to sustain a financially integrated community-based service delivery system for children with mental health needs who are currently or at-risk of out-of-home placement. NH STAR has been awarded a second year of funding from the Endowment for Health. Year II will continue to coordinate transition services for youth in residential placement, and their families, and will also coordinate services to youth at imminent risk of residential placement. Twelve families have been engaged in the project. A recently awarded SAMHSA grant will enhance this project with an emphasis on blending funding across child-serving agencies

Front End Operations & Consolidation of District Offices

The budget directs DHHS to pursue operating and service consolidation initiatives, in an effort to improve service delivery, obtain operating efficiencies, and promote the well-being of the state's citizens. This includes changes in ways to accept and process applications for services and a savings in field staff through attrition. This project is currently underway. The next District Office region to consolidate is the Eastern Region. (formally Conway District Office area) DHHS Bureau of Facilities Management will soon release a request for proposals to lease space in that area. Other improvements to improve access to services statewide include the completion of the NH Easy on-line web application initiative. Residents throughout the state can now apply for benefits on-line from any computer that has web access. This new application process allows our clients to create their own user accounts to track and manage all aspects of their applications. To improve our long term care eligibility processes, the DHHS now centralizes and assures that medical and eligibility applications are completed in parallel.

Consolidation of contracts

Savings have been budgeted related to consolidation of the number of contracts. This is intended to reduce the administrative costs associated with the processing and approval of state contracts, minimize expenditures in areas other than direct care and assistance to the persons in need served by the department, mitigate, to the extent possible, the negative effects of reductions in budgets and services, and create an efficient, effective and stable community system of health and human services agencies for the future. The Department is nearing completion on a plan to accomplish the objectives.

Health Information Exchange

Implement Phase 1 of the HIE capability for New Hampshire. The Department has received an award in the amount of \$5.5M from the American Recovery and Reinvestment Act of 2009 (ARRA), Title XIII – Health Information Technology, Subtitle B – Incentives for the Use of Health Information Technology, Section 3013, State Grants to Promote Health Information Technology. The purpose of the award is to promote the establishment of Health Information Exchange (HIE) that shall advance mechanisms for information sharing across the health care system. A Strategic and Operational Plan for the HIE was developed through the collaboration of stakeholders from across New Hampshire's health care community. Pursuant to Chapter 232 (HB 489), Laws of 2011, the New Hampshire Health Information Organization was formed that is establishing a HIE within the state.

Child Support System

Develop an architecture and plan migration of NECSES from the current platform. The plan, subject to Governor and Council approval, will consists of a modular approach to include 1) Assist in maintaining, and when necessary, develop new functionality in the existing NECSES; 2) Upgrade NECSES functionality and technology with modular steps; 3) Assist the State in carrying out the upgrade plan after approval; 4) Maintain the enhanced NECSES including reporting and contact center components after completion of the modular upgrade plan.
